### Reconciliation of GAAP to Non-GAAP Financial Measures

A reconciliation of GAAP to non-GAAP financial measures has been provided in the financial statement tables included in this earnings release. An explanation of these measures is also included below under the heading "Non-GAAP Financial Measures." We have not provided a quantitative reconciliation of forecasted Adjusted EBITDA to forecasted GAAP net income (loss) or to forecasted GAAP income (loss) before income taxes within this earnings release because we cannot, without unreasonable effort, calculate certain reconciling items with confidence due to the variability, complexity, and limited visibility of the adjusting items that would be excluded from forecasted Adjusted EBITDA. These items include, but are not limited to, income taxes and stock-based compensation expense, which are directly impacted by unpredictable fluctuations in the market price of our common stock. The variability of these items could have a significant impact on our future GAAP financial results.

Note: All percentage changes described within this press release are calculated using amounts in the Company's Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission (the "SEC"), for which revenue and active customers are presented in thousands and send volume is presented in millions. Rounding differences may occur when individually calculating percentages or totals from rounded amounts included within the press release body as compared to the amounts included with the Company's SEC filings.

### Non-GAAP Financial Measures

Some of the financial information and data contained in this earnings release, such as Adjusted EBITDA and non-GAAP operating expenses, have not been prepared in accordance with United States generally accepted accounting principles ("GAAP"). We regularly review our key business metrics and non-GAAP financial measures to evaluate our performance, identify trends affecting our business, prepare financial projections, and make strategic decisions. We believe that these key business metrics and non-GAAP financial measures provide meaningful supplemental information for management and investors in assessing our historical and future operating performance. Adjusted EBITDA and non-GAAP operating expenses are key output measures used by our management to evaluate our operating performance, inform future operating plans, and make strategic long-term decisions, including those relating to operating expenses and the allocation of internal resources. Remitly believes that the use of Adjusted EBITDA and non-GAAP operating expenses provides additional tools to assess operational performance and trends in, and in comparing Remitly's financial measures with, other similar companies, many of which present similar non-GAAP financial measures to investors. Remitly's non-GAAP financial measures may be different from non-GAAP financial measures used by other companies. The presentation of non-GAAP financial measures is not

intended to be considered in isolation or as a substitute for, or superior to, financial measures determined in accordance with GAAP. Because of the limitations of non-GAAP financial measures, you should consider the non-GAAP financial measures presented herein in conjunction with Remitly's financial statements and the related notes thereto. Please refer to the non-GAAP reconciliations in this press release for a reconciliation of these non-GAAP financial measures to the most comparable financial measure prepared in accordance with GAAP.

We calculate Adjusted EBITDA as net loss adjusted by (i) interest (income) expense, net, (ii) provision for income taxes, (iii) noncash charge of depreciation and amortization, (iv) gains and losses from the remeasurement of foreign currency assets and liabilities into their functional currency, (v) noncash charges associated with our donation of common stock in connection with our Pledge 1% commitment, (vi) noncash stock-based compensation expense, net, and (vii) certain transaction and integration costs associated with acquisitions. We calculate non-GAAP operating expenses as our GAAP operating expenses adjusted by (i) noncash stock-based compensation expense, net, (ii) noncash charges associated with our donation of common stock in connection with our Pledge 1% commitment, as well as (iii) certain transaction and integration costs associated with acquisitions.

It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties, and assumptions, our actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Further information on risks that could cause actual results to differ materially from forecasted results is included in our quarterly report on Form 10-Q for the quarter ended March 31, 2023 to be filed with the SEC, and within our annual report on Form 10-K for the year ended December 31, 2022 filed with the SEC, which are or will be available on our website at <https://ir.remitly.com> and on the SEC's website at [www.sec.gov](http://www.sec.gov).
